INNOVA Measure Workshop
Innovation, high-growth and internationalization of R&D
November 28, 2017 - Brussels, Belgium
Determinants of high-tech entrepreneurship in EU

- Europe is specialised in low-medium tech but high-tech - especially digital - firms are conducive to radical innovations

Conditions associated with high-tech entrepreneurship

- Share of high-tech employment (human capital)
- Credit to private sector (finance)
- Government effectiveness (institution)
- Entrepreneurship education (human capital)
- Dynamic markets (market condition)
- Availability of venture capital funds (finance)

Framework conditions for scaleups in Europe

- The Entrepreneurship and Scale-up Indices to monitor the scale-up conditions in the EU MSs

Europe in the global venture capital landscape

- **Finance** is a key enabler of entrepreneurship: insights on the EU VC
